## 2. TENOLOGY

### 1. Software Used:-

With the help of VS (Visual Studio) Code Editor we created this website.

### 2. Browsers Used:-

- Google Chrome.
- Microsoft Edge.
- Mozilla Firefox.

### 3. Software Used:-

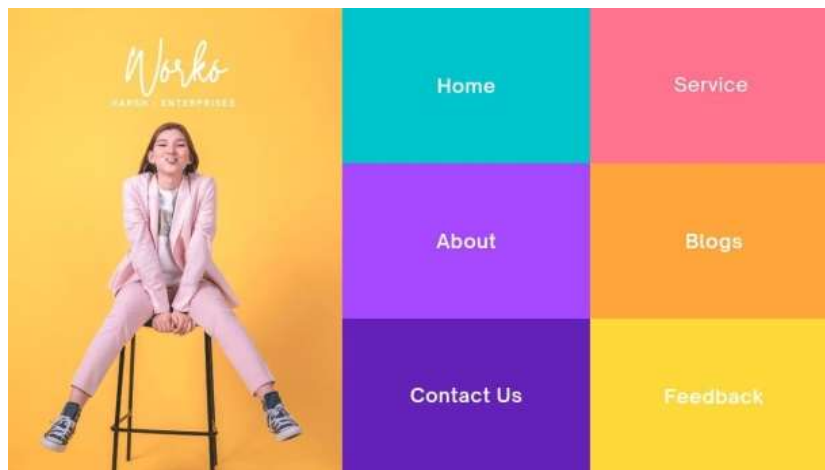

- HTML (Hyper Text Markup Language).
- CSS (Cascading Style Sheet).
- JavaScript.

❖ **HTML:-** It is a markup language which is used to basically describe the skeleton part of the website, whatever the content which is displayed on the webpage it is written in the HTML.

❖ **CSS:-** It is a style sheet which is used to adding style in website, with the help of this our website looks better also by this we can make our website animated and interactive user interface. Without CSS our website is not looks really good so we need to use css.

❖ **JavaScript:**-It is Scripting Language which is in web development, it can changes website dynamically whatever the pop-up, cookies which we can see on any website these are created by this language. It is used to make our website responsive.

### 3. Front View of Our Website

### 4. Sections of this websites

1. **HOME:** Home Page of this website is basically defines whatever the facility we are providing through this and also navbar section.
2. **SERVICE:** Service section consists of services which we are providing to our customers.
3. **ABOUT:** About section contain detailed information about this website.
4. **BLOGS:** Blogs section generally used to inform the customers what the new types of services we launched in the market.
5. **CONTACT US:** In Contact section we have created a form through which the customers contact us easily and list their complaint regarding their services or issues etc.
6. **FEEDBACK:** In this section customer give their review on behalf of the services which was provided to them.

### 5. PROS

1. It is easy to use or access.
2. The service is available for 24X7.
3. It takes minimum time to fulfil the customer requirements.
4. This website consist approximate all the issues related to Plumber and Electricians.
5. Our customer care is available to resolve issues for 24X7.
6. The customers data is secure in this website because we using SSL (Secure Socket Layer) and TLS (Transport Security Layer).

## 6. CONS

1. We are not available at all locations.
2. We are providing two services only.
3. It is difficult to provide the services in rural areas.

## 7. FUTURE IMPROVEMENTS

1. In upcoming years we try to add some more services such as Mason and Labours etc.
2. Also cover some more locations of different-different cities.
3. We try to implement some more functionalities in this website.
4. In upcoming years we will try to launch our own stores through which customers can purchase whatever they want related to their services.

## 8. TECHNOLOGY

It is conclude that we are try to provide the service to those customers who are not capable to visit at the marketplace, there is no any gender bias any gender can book their services as per need.

A service-based website that provides access to plumbers and electricians plays a crucial role in addressing the needs of individuals and businesses seeking reliable and efficient home maintenance services. This platform serves as a bridge between service providers and customers, offering convenience, accessibility, and a streamlined process for finding skilled professionals.
